

# About CHITIC

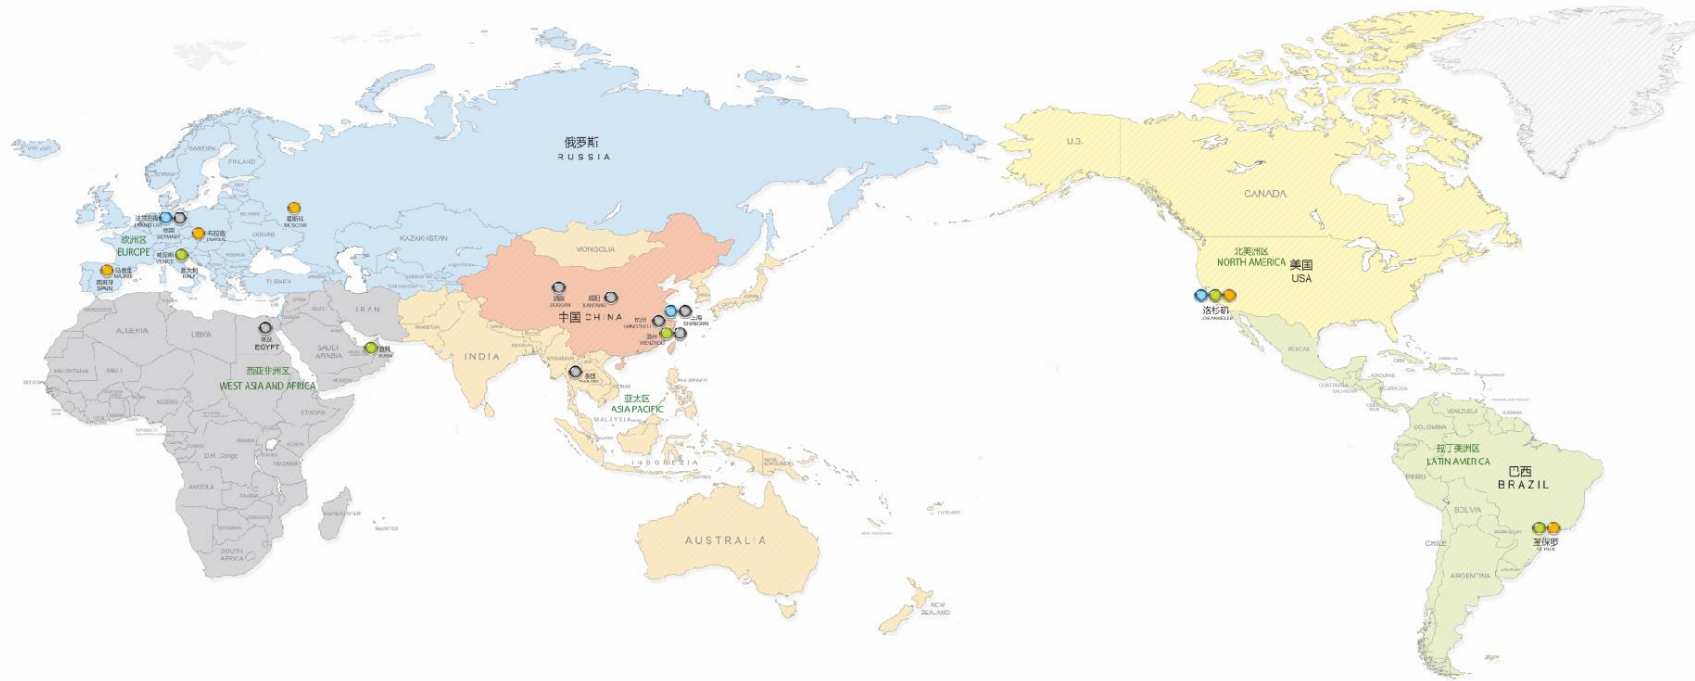

- Industrial Automation

CHITIC – Jasmine Dai

- 2018.08

- ◎ Assets: total assets of 63 billion RMB
- ◎ Sales revenue: almost 60 billion RMB
- ◎ Enterprise scale: 30000 employees, foreign employees more than 1400 —updated to Dec, 2017

## 3 Global Research Center

- Europe, North America, Asia Pacific

## 6 International Marketing & Sales Area

- Asia Pacific, Middle East and Africa, Europe, Latin America, North America, China

## 9 Manufacturing Bases

- China (Wenzhou, Shanghai, Hangzhou, Jiaxing, Xianyang, Jiuquan), Thailand, Egypt, Germany

## 14 International Subsidiaries

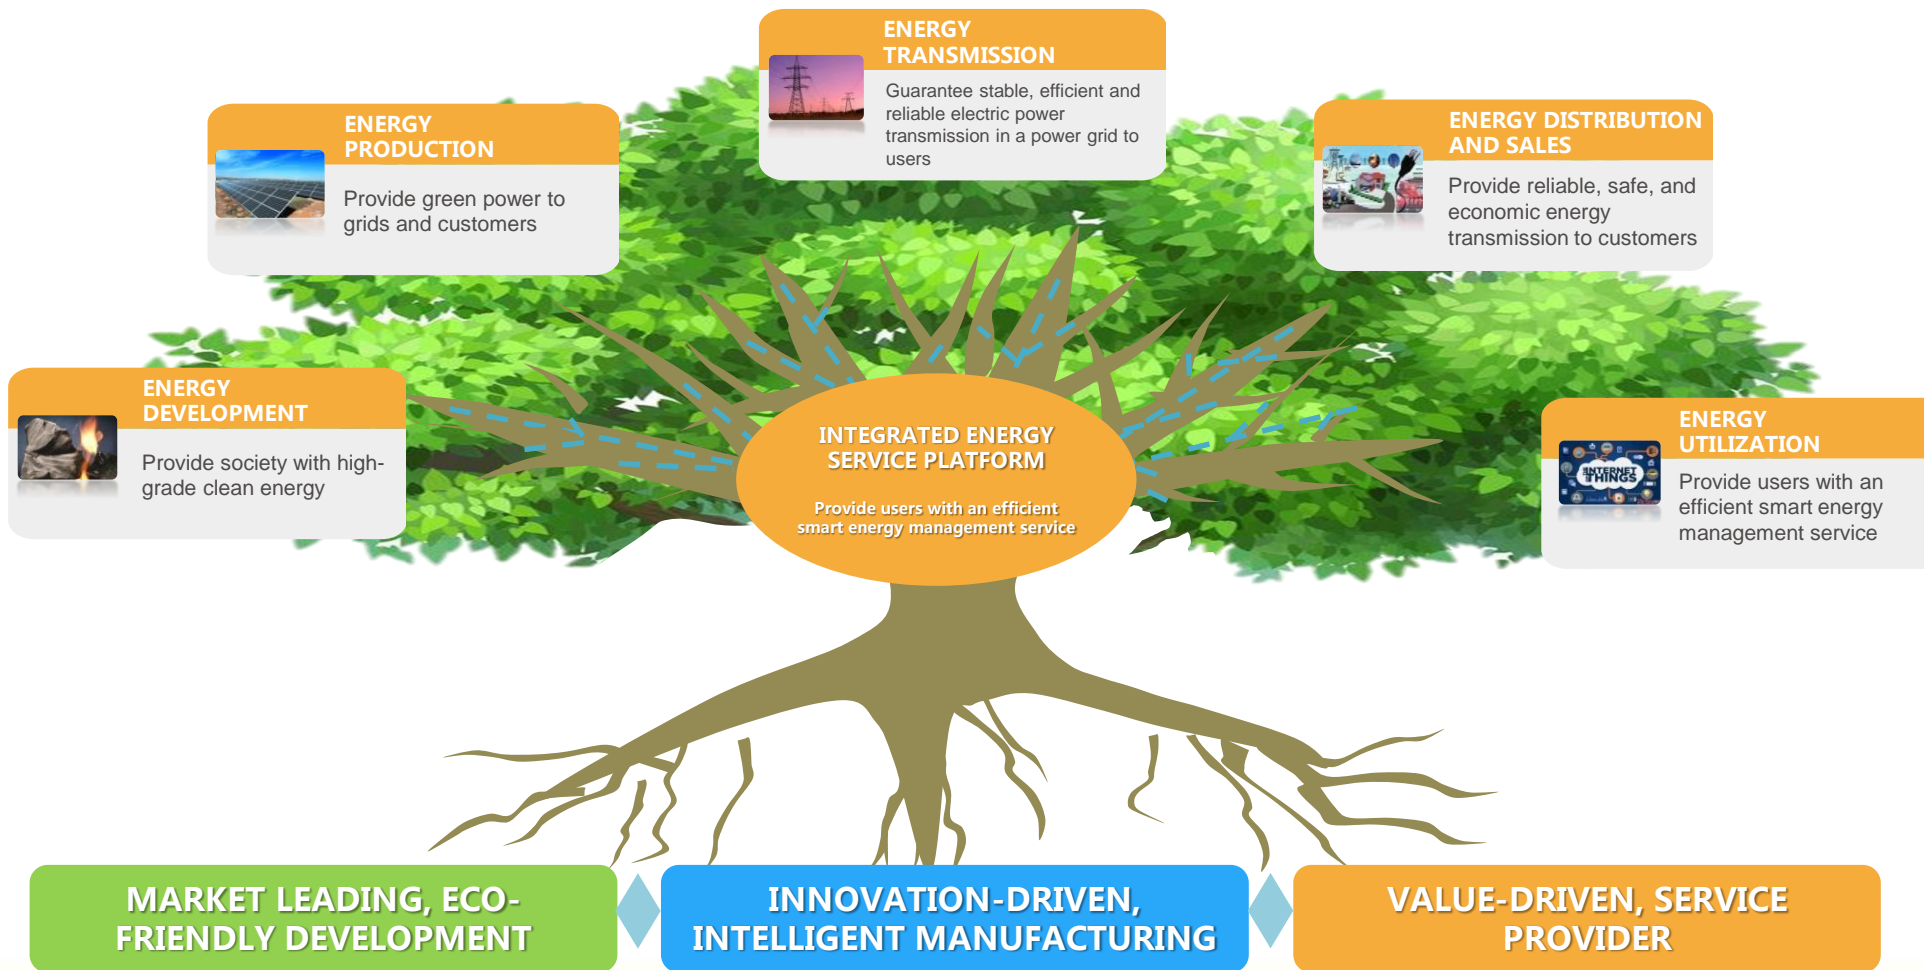

## 14 Marketing Offices in China

## 22 Logistics Centers

## 2300 Sales Companies

## VISION: TO BE THE AUTHORITY FOR SMART ENERGY SOLUTIONS

## CHINT AUTOMATION

Total Solution Provider for Smart Control & Automation Information

Easy Connection by Iot,  
Smart Tech for the Future

President: 南阳

**Comprehensive Intelligent Automation  
Production line**

**Production+Solution+Service**

## ■ Process Automation

DCS: PCS 1800, TDCS9200, CTS700    PLC: PCS1200, PCS1500, ChiticEKS system configuration monitoring software, ChiticRTC real-time control software, Chitic industry control software V8.0

## ■ Equipment Automation

GTex high-speed rapier loom control system, GTex switched reluctance motor drive system

## ■ Smart Water

Chitic smart water management platform, Chitic water plant/ wastewater treatment plant automation control system, Chitic raw water and sewage pump station automation control system, Chitic intelligent secondary water supply solution, Chitic remote meter reading management system for municipal water, Chitic camera-in water meter & remote meter reading system

## ■ Smart Thermal Power

ChiticSCADA heat-supply network monitoring & dispatching system, ChiticSCADA data base software, ChiticHEMS, ChiticGIS, ChiticM-BUS software, ChiticHCU1200, SmartMDC

## ■ Smart Energy

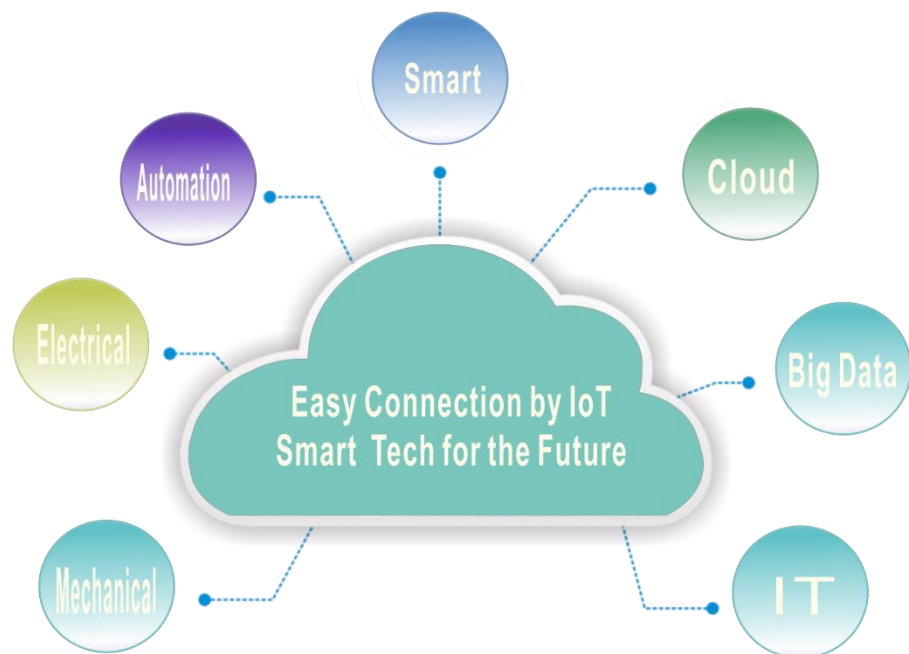

ChiticSolar, ChiticPlant, ChiticBank, WebBox, Chitic PV power station system integration, Chitic biomass power generation system integration, Chitic intelligent power distribution supervisory system

## ■ Intelligent Production Management

Production manufacturing MES, SCADA

## © Smart Energy

### Intelligent Monitoring

- Substation Monitoring System
- Remote Data Transmission
- Monitoring Center
- WEB Platform
- Large-screen Display

### Intelligent Assessment

#### Plant Health Assessment System

Plant health assessment  
Inverter health assessment  
AC/DC loss assessment

#### Generating Capacity Assessment System

Photovoltaic meteorograph research and development  
Illumination data collection and statistics  
Theoretical generating capacity assessment  
Plant efficiency and profit assessment

#### Loss of Dustfall Assessment System

Cleanliness instrument research and development  
Research in cleanliness affecting efficiency  
Optimal cleaning filter

### Intelligent O & M

#### Online and Offline Interactive system

Online low carbon ranking  
Online efficiency assessment  
Online operation and maintenance guidance  
Offline maintenance feedback  
Offline communication platform

#### Asset Information Management System

Equipment asset information management  
Equipment maintenance information management  
After sales & maintenance service

#### Auto Cleaning System

Automation cleaning device  
Visual management  
Continuous attention to new technology

# TDCS9200

## Distributed Control System

## Features:

- Scalability/ Modularity
- Easy integration
- Openness
- Availability/ Reliability
- Compatibility
- Flexibility
- Energy efficiency

- Each control station supports 2 controller modules, 32 I/O modules, 512 AI/AO, or 1024 DI/ DO.
- **The system capacity:**
- AI: 16384, or AO: 16384, or DIO: 32768.

Real-time database	65536
Control station: AIO	512/station
Control station: DIO	1024/station
Real-time graph QTY	512
SNet nodes	96
Cnet nodes	32

CERTIFICATE OF CONFORMITY

## CERTIFICATE of Conformity

Reference No.: LCS1603080569E

Applicant	: Zhejiang Chitic Control Engineering Co., Ltd.
Address	: No.260, 6th Street, Hangzhou Economic & Technological Development Zone
Product	: TDCS9200 distributed control system
Model(s)	: TDCS9200
Trade Mark	: 

The submitted products have been tested by us with the listed standards and found in compliance with the following European Directives:

**The EMC Directive 2014/30/EU**

**EN 60730-1:2000/A16:2007/A20:2010**

The tests were performed in normal operation mode. The test results apply only to the particular sample tested and to the specific tests carried out. This certificate applies specifically to the sample investigated in our test reference number only.

The CE markings as shown below can be affixed on the product after preparation of necessary technical documentation.

Other relevant Directives have to be observed.

Biopharmaceutical

Public Utility

The controller module is the core part of control station, undertaking data processing, data exchanging and executing control algorithm. It supports third-party device connection to control station and supports communication between control station and host computer.

## Specification

- Embedded industrial microprocessor
- Real-time multi-tasking operating system RTOS
- Real-time database
- EEPROM mass storage
- 1:1 redundancy

- **16-32 channels universal regulation module**

Mixed signal input and output, including AI, AO, DI, DO, PI, etc, automatic identification, conventional installation

- **16-32 channels universal regulation module**

Mixed signal input and output, including AI, AO, DI, DO, PI, etc, automatic identification, conventional installation

- **32-CH integrated DIO module**

Digital signals input and output

- **32-CH SOE module**

Collecting and storing digital signals' status and event time to realize fault data analysis

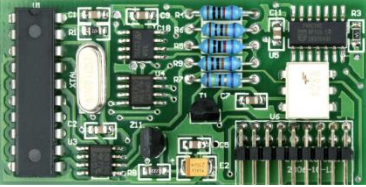

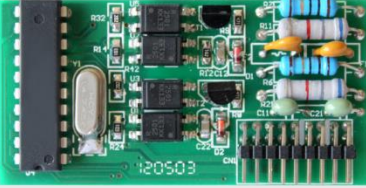

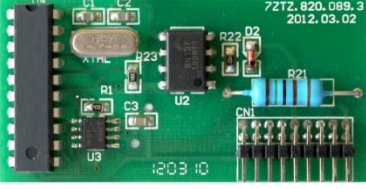

Figure	Model	Description	Notes
	ST9315	Single channel full-isolated universal AI card	Supporting 1channel for AI, 14 normal industrial measuring signals
	ST9321	Single channel full-isolated AO (current) card	Supporting 1 channel for AO, 3 current signals
	ST9351	Dual channels optical-isolated DIO card	Supporting 2 channels for DI or DO through software setting
	ST9361	Single channel optical-isolated PI card	Supporting 1 channel for PI

Figure	Model	Description
	ST9173A	16-CH active DI terminal board (220VAC)
	ST9173B	16-CH passive DI terminal board (220VAC)
	ST9173C	16-CH active DI terminal board (24VDC)
	ST9173D	16-CH passive DI terminal board (24VDC)

Figure	Model	Description
	ST9172	8-CH AIO/16-CH DIO terminal box
	ST9173	16-CH DI terminal box
	ST9174C	16-CH DO terminal board (with 16pcs 10A relay)
	ST9175	8-CH AI redundancy terminal board
	ST9176	8-CH AO redundancy terminal board

System power unit

System radiator unit

DCS cabinet/panel

6U industrial rack cage/ 6U bus-oriented backplane

Cabinet alarm module

Dual power switching components

24VDC power unit

## Operator Station

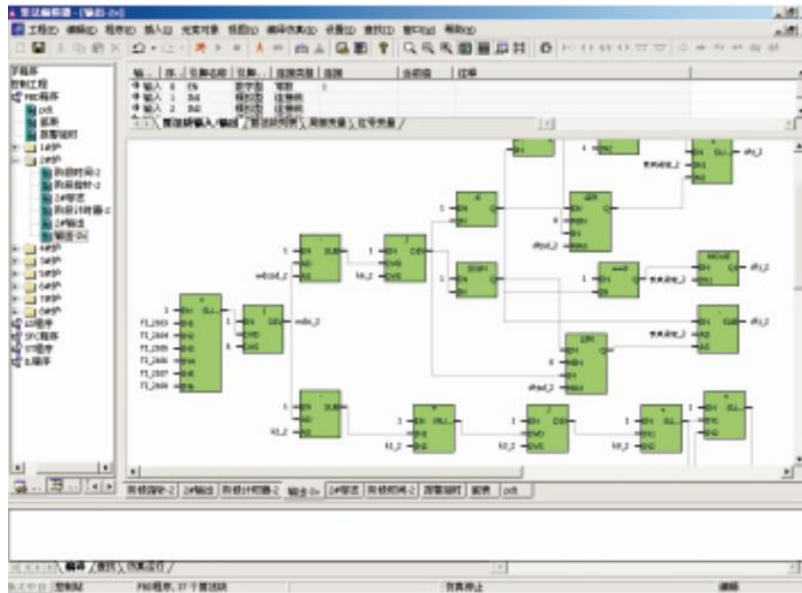

- Data display
- Operating log
- Data alarm
- Alarm acknowledge
- Data report
- History data recording

## Engineer Station

- Device configuration
- System diagnosis
- Control strategy programming
- Monitoring graphics building

## ChiticMaker

ChiticMaker is a tool making monitoring graphs. The programming languages conform to IEC61131-3 standard.

Program Editor

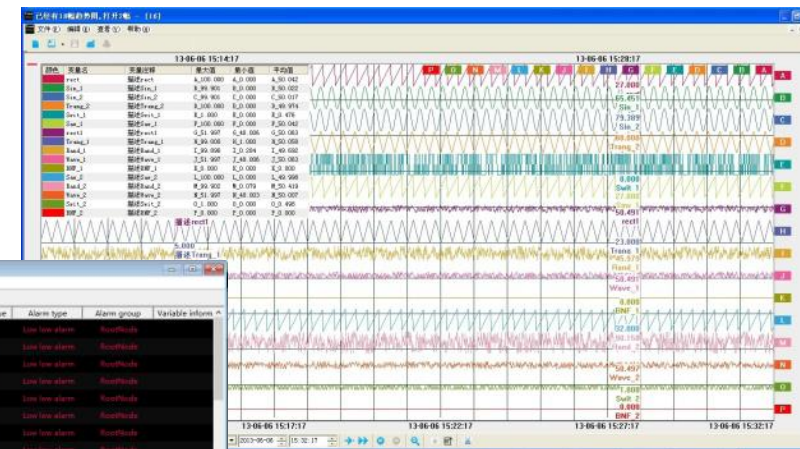

Graphics Editor

## ChiticView

ChiticView is a tool for various graph display, like process display, trend analysis, alarm display, etc.

Process Display

Trend Analysis

Alarm time	Variable Name	Alarm current value	Alarm limit value	Alarm type	Alarm group	Variable information

Alarm Display

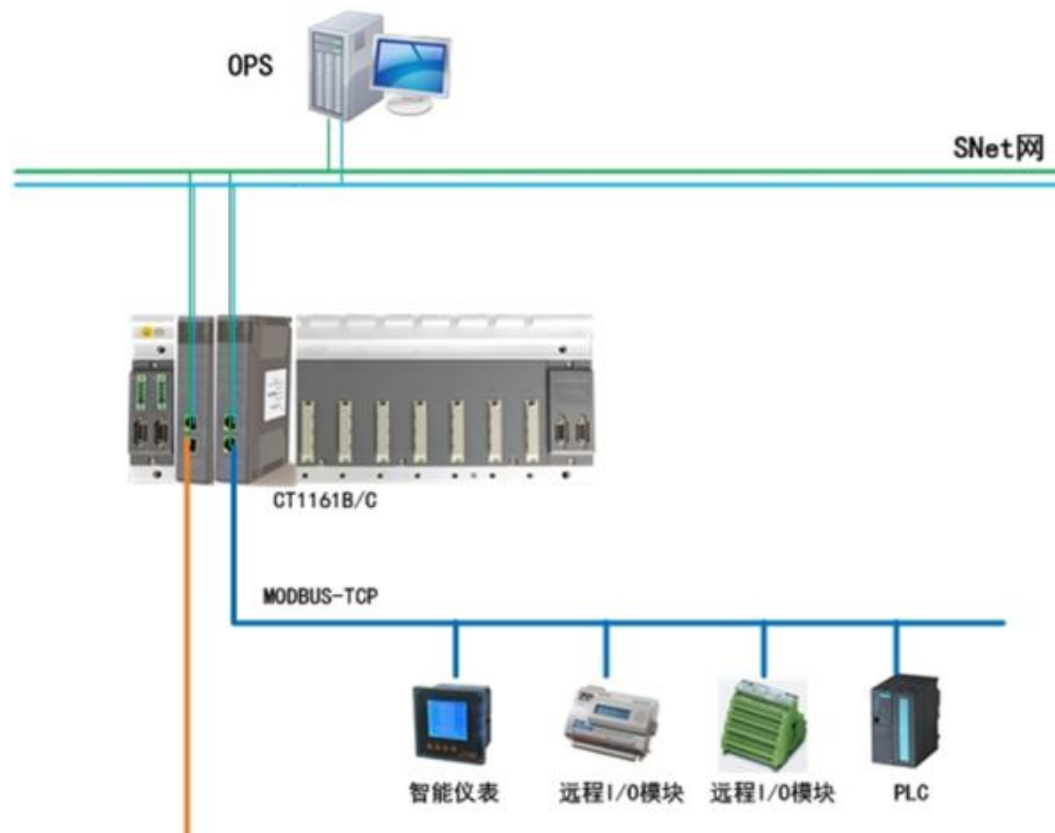

TDCS9200 is an open system supporting the mainstream communication protocols in industry automation applications.

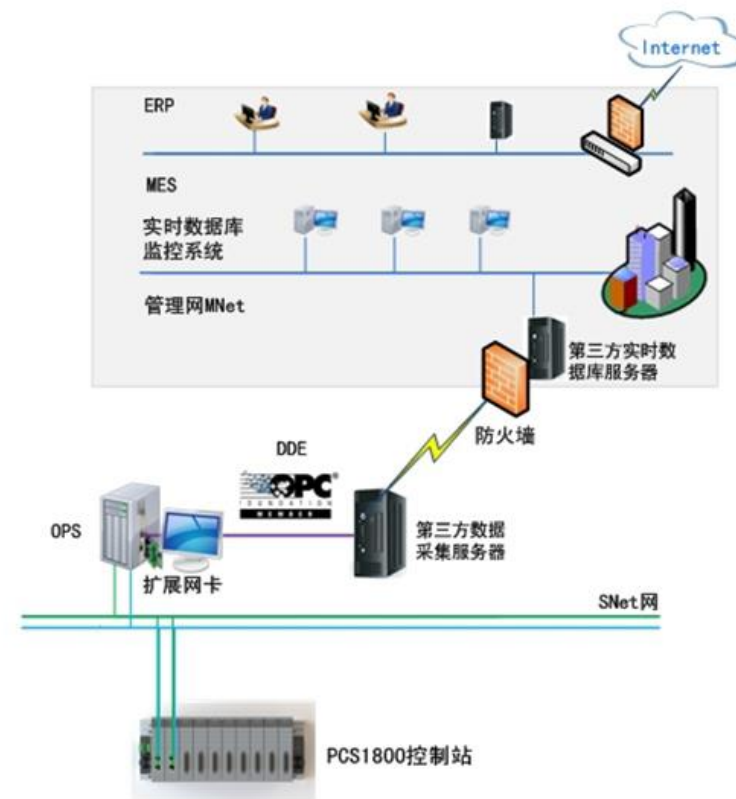

Modbus-TCP/ Modbus-RTU (master)

Modbus-TCP/ Modbus-RTU (slave)

Profitbus-DP

OPC, DDE

Item	Parameter	Index
<b>Accuracy</b>	AI Error	$\pm 0.1\% \text{F.S.}$
	AO Error	$\pm 0.15\% \text{F.S.}$
	SOE	1ms
<b>Real-time performance</b>	Scan cycle	50ms for digital signal 100ms for analog signal
	Loop control cycle	100ms
	Logic control cycle	50ms
	Response time of monitoring graph	$\leq 0.5\text{s}$
<b>Network performance</b>	SmartBus communication rate	19.2kbps
	CNet communication rate	1Mbps
	SNet communication rate	100Mbps
	MNet communication rate	100M/ 1000Mbps

Item	Parameter	Index
<b>Input &amp; output performance</b>	AI input impedance	10M $\Omega$ for voltage input; 250 $\Omega$ for current input
	AO load	750 $\Omega$ @ 4-20mA 1000 $\Omega$ @ 0-10mA
	DI input impedance	>6.8k $\Omega$
	MAX DO load capacity	100mA @ 24VDC 5A @ 250VAC (relay, connecting by terminal module)
	PI frequency	0~30kHz Resolution ratio: $\pm 1\text{Hz}$
	Over-voltage and over-current protection	Yes

Item	Parameter	Index
<b>System load (recommended)</b>	Operator station	<30%
	SNet	<30%
	Control station	<30%
	CNet	<50%
<b>Reliability</b>	Redundant power supply	Optional
	Redundant network	Standard
	Redundant controller module	Optional
	Redundant I/O module	Optional
	Hot swap supporting	Yes
	AO retain	Yes (system not powered off)
	MTBF	≥100000h
	MTTR	≤5min
<b>Anti-interference</b>	Anti-interference	AI (CMRR): ≥120dB AI (NMRR): ≥60dB EMC: industry level III
	Pressure resistance	I/O isolation: 500VDC Power isolation: 3000VAC

Item	Parameter	Index
<b>Power supply</b>	AC power supply	165V-265VAC, 47Hz-53Hz
	DC output	<0.8% under max load
	Ripple factor	<5%
	Over-current protection	Activated when load>110%~150% of rated current
<b>Working environment</b>	Over-voltage protection	Activated when voltage>rated 125%~145% of rated voltage
	Working temperature	0~55°C
	Storage temperature	-20-70°C
	Working humidity	10-85% relative humidity, non-condensing
	Storage & transportation humidity	≤93%RH (40°C)
	Atmospheric pressure	86-106kPa

No.	Model	Description
<b>Operator Station/ Engineering Station</b>		
1	ST9433	Chitic TDCS9200 industry control software V8.0 (no limit development running version)
2	ST9436	Chitic TDCS9200 industry control software V8.0 (no limit running version)
3	ST9614	Operator station/ Engineering station
4	ST9643A	SNet switch (16 electrical port)
<b>Control Station</b>		
1	ST9006	DCS cabinet/panel (800*600*2200)mm
2	ST9004	Communication cable
3	ST9005	Accessories in the cabinet
4	ST9111	6U industrial rack cage
5	ST9121	6U bus-oriented backplane
6	ST9132	System power unit
7	ST9133	System radiator unit
8	ST9134B	24VDC power unit (10A)
9	ST9162	Controller module
10	ST9262	32-CH integrated DIO module

No.	Model	Description
<b>Control Station</b>		
11	ST9271	16-32 channels universal regulation module
12	ST9233	32-CH SOE module
13	ST9315	Single channel full-isolated universal AI card
14	ST9321	Single channel full-isolated AO (current) card
15	ST9361	Single channel optical-isolated PI card
16	ST9172	8-CH AIO/16-CH DIO terminal box
17	ST9173	16-CH DI terminal box
18	ST9174C	16-CH DO terminal board (with 16pcs 10A relay)
19	ST9175	8-CH AI redundancy terminal board
20	ST9176	8-CH AO redundancy terminal board
21	ST9135	Dual power switching components (10A)
22	ST9137	Dual power switching components (80A)
23	ST9191	Cabinet alarm module
24	ST9150	4-serial-port communication module supporting Modbus RTU
25	ST9151	4-serial-port communication module supporting Profitbus DP
